

CITIZENS CHURCH

BUILDING BENCHMARKS

There are no shortage of good reasons to explain why Citizens Church having a building will benefit both the church and community. But, one unique way we will be giving back to the community is through our Enrichment Initiatives. Two of our favorites are..:

- Foster and At-Risk-Youth Program** - 53% of kids in foster care stay until they are “aged out”. That means that **more than half of all foster kids never find a home**. By the time they age out, they have few life skills and little support. Meanwhile, foster parents are overrun with requests to take on more kids due to impossibly high ratios.
 - Solution:** We have partnered with local foster agencies and our very own Foster Parent Citizens to create a Foster support group that will support existing foster parents and supply resources to at-risk, aged-out youth. We are also offering free child-care to foster and single parents so they can get a break and catch up on rest or work.
- Live & Learn Workshops** - People need skills and insights. Everything from home economics, to self-defense, to starting a business, to CPR certification and more; people are searching for resources to increase their chances to find a job, discover passions, and realize success.
 - Solution:** We are offering classes to people of all ages and walks of life on subjects ranging from finances & career to cooking and arts.

A building makes it possible. Discover more at: buildingcitizens.church
